A meeting of the Republican Contra' Committee of the District of Columbia was beld last night at the Cosmopoliton Hall, President A. M. Clapp in the chair, Mr. Wilkinson acting as secretary. Nearly all the districts were represented by delegates or alternates. Mr. Clapp stated the object of the meeting to be the celection of a new committee by an election to be held at the primaries. Gen. Whitaker then offered the following:

following:

Resolved, That, in compliance with the provisions of the constitution, this committee designates the time at which new members shall be elected in each assembly district as on Tuesday, the 2d day of January, 1888, at 8 o'clock p. m. The presidents of the several district Republican clube recognized by this committee are required under the constitution to fix the place of holding said election in their respective districts and advertise the place, date, and hour of said election in at least one issue of some daily newspaper published in the District of Columbia at least two days previous to such election.

to such election.

Mr. Freeman referred to the trouble experienced in the past in holding primaries, and was in favor of limiting the time in which voting shall be legal, in order to do sway with all chance of boiting the thete. After a good deal of discusion Gen. Whitaker's resolution was amended so that the voting should begin at 8 o'clock and close at 9 o'clock. An exception was made of the two county districts, who can vote as long after 8 o'clock as may be necessary.

At Mr. Chase's suggestion a vote of thanks was tendered Mesers. Clapp and Wilkinson.

Wilkinson.
The following by Mr. Chase was unanimously adopted:

Manufacture Resorting Central Club Mousey suppred:

Kessived, That the Republican Central Club, of the District of Columbia, appeal to the Cougress of the United States for the restoration of the suffrage to year 200,000 disenfranchised citizens in the District of Columbia.

Mr. Dyson offered the following: Resideed, That any one who within the last three years has in any way taken part with the Democratic party, or the doctrines thereof, and who have canvassed in any state in the interest of the Democratic party, shall not be recognized in the Hepublican party of the District of Columbia.

District of Columbia.

On being pressed for facts, Mr. Dyson mentloned the names of William Brown and Robert Dawson. Mr. Freeman thought it was best to pass the parties by with silent contempt, and moved to lay the resolution on the table, which was carried, and the committee adjoursed.

### ALEXANDRIA MATTERS.

Items of Interest Gathered for the "Republican's" Readers.

The funeral of the late Charles H. House, account of whose sad death on Sunday last has already appeared in the Rupunon Upper Prince street, vesterday afternoon at 3 o'clock. Owing to the absence of several important-witnesses the coroner's inquest was postponed until this morning.

Owing to the peculiar wording of the charter of this city, which should provide against emergencies in the management of the city government, alexandria is legally without a mayor. As a consequence the city council will convene as early as practicable and elect some one to fill the vacancy created by the death of the Hon. John B. Smoot. Several have been prominently mentioned in connection with the position, among whom are J. G. Beckham, E. E. Downham, and H. Strauss.

The Christmas celebration of the M. E. Church South will be held in the basement of that church this evening at 8 o'clock.

Pledged to Good Citizenship. EDITOR NATIONAL REPUBLICAN: A party esiding at a distance who is familiar with the proceedings of the Evangelical Alliance, lately convened in this city, and who read lately convened in this city, and who read your report of Rev. Father Chappelle's sermon answering statements made by alliance speakers which he believed impeached the loyalty of Catholics, sends the following, which please give place in the columns of your widely-read paper.

"As I believe Ir, the Rev. Mr. Chappelle has pledged himself and his church to good citizenship, and in so doing has been the first to respond to Bishop Coxe's appeal at the Christian conference.

"The papers on ultramontanism especially stated that Roman Catholics who stand with Saint Louis and Boysout on the old Gallican basis are good Americans. The reverend gentleman seems to stand there.

Gallian basis are good Americans. The reverend gentleman seems to stand there. Our only conflict is with Jesuits and ultramontanists, who denounce our public schools, employ the most virulent text books, damning all Protestants, and sustaining the late syllabus of Plus IX, which is of no authority in America, nor among Gallicans." Wool Discrimination.
Consul Baker, in a report to the Department of State in regard to the wool pro-duction of the Argentine Republic, says duction of the Argentine Republic, says that the amount of fine wools shipped from there to the United States is annually becoming less. The cause of this, he says, is in great part due to the fact that the United States tariff unintentionally, but very unjustly, discriminates against such wools from the Argentine Republic in favor of those from Australia, New Zealand, &c., our system of computing the duties making no allowance whatever for the fact that the dirt sud grease in the wools of the Argentine Republic is fully 70 per cent, greater than those of the former countries; this excess of dirt and grease being required to pay the full tariff rates for wool. The only wools from the Argentine Republic which it is now possible to ship under our tariff are the "Criolla" or long carpet wools of the prevince of Cordoba, which are shipped from Rossrio, and which amount to about 10,000,000 pounds annually.

Interesting Entertainment. and Mrs. J. P. Newman, aided by Prof. B. P. Murray and the stereopticon. are giving a series of entertainments of rare interest this week at the Metropolitan M. E. Church, Four-and-a-half and C streets. The views given last evening were: First, a line of palaces throughout the world; secend, homes from the Garden of Eden to that of the Presidents in Washington. Then followed a recess, with refreshments, after which were exhibited individuals, groups, and processions of the peoples of all lands as they appeared on occasions of public interest in the tour of Dr. and Mrs. Newman around the world.

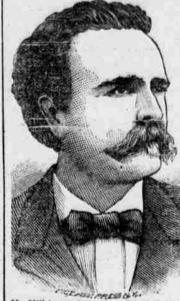

The evening was closed with a collection of views of American scenery as seen by them in last summer's trip through the west. Dr. Newman gave the history of the pictures as they passed, with incidents of much interest. There was a cultured and appreciative audience present, and a season of much enjoyment. The series will continue to Friday night. interest this week at the Metropolitan M.

Prayer for Prohibition. The ladies of the Woman's Christian Temperance Union have arranged an excellent programme for an all-day prayer and consecration service at Central Union Mission rooms Thursday, Dec. 39, from 10 a. m. to 4:30 p. m. Rev. Drs. Naylor, Bamillo, Elifott, Steward, Swem, and other pastors, with the ladies, will load the services. The public is cordially invited.

To Be Chairman of the Ways and

Means Committee. The committee that will have charge of important legislation on the tariff, which men of all parties foresee, it is said will be headed by Roger Q. Mills, of Texas. There was much opposition expressed to

Mr. Mills's appointment, and he had an interview with Speaker Carlisle on the matter, when he explained that while he entertained certain views concerning the methods of revenue reduction and tariff revision, he was ready to do whatever the Speaker might think wise in order to secure harmony, effect tariff legislation, and carry out the line laid down by the President, even to including, to a certain extent, internal revenue repeal. These declarations of Representative Mills placed him in accord with the administration, and removed the only barrier to a chairmanship which places him in rank among the foremost practical satesmen of the Union.

Mr. Mills is a congressman of long experierce, having been elected to the forty-third-Congress and seven times subsequently. He represents the ninth district of Texas, and resides at Corsicana.

SKIPPED WITH A SOCIETY MAN

Clothes and a Full Bustle. The case of Amelia, alias "Dalsy" Brown, charged with petit larceny, came up for trial in the criminal court yesterday after-noon. "Daisy" is a rather prepossessing colored girl about 19 years of age, and was gotten up in the height of style. She was gotten up in the height of style. She was disposed to treat the trial as a joke and giggled all through the proceedings. The testimony showed that "Daisy" had been employed as a domestic at the residence of Mr. George C. Marquard on Fourteenth street; that she had been well treated and had received many presents of clothes and money. On the 14th of November she asked her employers for \$2 to help her sick mother in Baltimore, which was given her, and she left, promising to return the next day. Several articles of wearing apparel mysteriously disappeared about the same time, and, as she didn't return, the police were notified, and found her in a low dance house in Baltimore. On being arrested she admitted taking the articles, and, undoing her bustle, returned most of them to the astonished officer, who brought her back to this city. On her artival she was taken to Mr. Marquard's residence, and from hidden places she pulled out bedcothes and wearing apparel which she had concealed at different times.

On the stand Daisy admitted borrowing

she pulled out bedclothes and wearing apparel which she had concealed at different times.

On the stand Dalay admitted borrowing the articles, saying she intended to return them; that she only took them to make a bustle out of, and had been permitted to borrow articles and had always returned them. She went to Bultimore in company with a prominent society man of Bultimore, who agreed to pay her fare back to he city, but failed to materialize, and, being without funds, she was unable to go back to Mr. Marquard'se. On the case being given to the jury a verdict of guilty as indicted was returned.

The management this season promise that the concerts given in the past eight years of the existence of the society will not only be equalled, but even surpassed by this year's programme. The soloists for the first concert are Miss Nona Stosch, violinist, in a Rubinstein concerto, and Miss Fielding Roselle, in a number of carefully selected vocal recitals. As the objects for which the concerts are given are worthy the patronage of all it is to be hoped the public will respond to the call of the orchestra, not only liberally but in great numbers. Tickets are to be had at the various music stores of the city.

EXTRACT FROM GEN. ROSECHANS'S REPORT.

At the rate of \$15 per ton, 0,000 tons would produce \$144,000 worth of bullion, which should pay all costs and expenses and leave a net of \$72,000. If provision is made to do this in a business-like way, the preliminaries can all be done in four months; and at twenty tons per diem the extraction and militing would require four hundred and eighty days, making in all about sk hundred days, leaving the owners with the property complete, and paying back all expenses and over 100 per cent. It will be seen that the first expenditure of \$23.000 in the first four months would be at the rate of \$5,750 per month, but after that time the mine will begin to more than pay expenses.

All of which is submitted to the Board.

GEN. W. S. ROSECRANS.

The cre is free milling. The cost of mining and milling will not exceed \$10 per ton. I consider this belt as one of the best in Arizona upon the surface and to the depth now reached. And it will require but a short time to prove that we have a property second to none in Arizona, and one that will pay from the first working of the mill.

i. That your two contiguous claims, 1,500 feet larg and 600 feet wide each, have croppings of a vein of gold-bearing quarta visible at the surface for most of their length, besides nu-

merous small stringers of the same kind of quartz adjacent thereto and intersecting the main vein. main vein.

2. That at some twenty or thirty points on the vein, indicated on Cunningham's map, prepared under my directions, openings and sinkings have been made, in all of which sinkings have been made, in all of which specimens, and in many rich samples, of gold have been found in the quartz, which seems to vary from five to ten inches in thickness. Some of these openings are cut from three to fourieen feet deep, and on the north cad of Ellen Jane is att incline 132 feet deep. North ward on the "Tommanotta" 300 feet are two shaits, one 10 feet and the other 48 feet deep. Within the next hundred feet north are one 12 feet and one 60 feet deep.

3. Out of all these openings and shafts vein matter and quartz have been taken, and of the quarts some have been selected for specimens, giving the large assays mentioned in Mr. Chaning in letter, and samples, assays of which are also therein set forth.

Finally, selections from the greet thus extracted have been made, showing in "Ledoux and Hickett's Assay office Report" of a thirty-even pound sample at the rate of \$2.551.00 per ton. Navy Faymaster Barton's letter states that six tons selected as above stated averaged \$127.25 per ton grees product.

CUNNINGHAM'S REPORT.

the Ellen Jane and the Tommanotta respecively.

The company has developed both these mines
as follows: A shaft having been sunk to the
depth of 68 feet on the Tommanotta, and onto the depth of 125 feet on the Ellen Jane, with
levels running parallel with the vein 50 feet
below the aurface and on the vein mortheast
and southwest. The proporties are very flattering, as will be sent by the reports of experts
and assays. There is now no doubt that this
all be a find class paying properly.

The Ellen Jane is attnated on the southeast
extremity of the Music Mountain range, ofmensions 600 feet in width by 1,300 feet in
length: has one shaft 152 feet doon and see
evial open cuits, all of which show pay ore. The
Tommanotts is an excusion of the Ellen
Jane.

Tommspotts is an extension of the Ellan Jame.

This mine has also been partially developed by a shart so feet and several of lesser depths, also open cuts, all showing pay ore. The veits on both properties cross sold and strong, and there is no reason to doubt that a very large and rich ore body lays not far betteath the depth now reached, which is also too opinion of the best experts and miners who have been on the property.

Water has been the great drawback to the developing of mines in this range, but that has now been set at rost, as water was found in the Ellen Jane shaft at the depth of 123 feet, and growing stronger as depth is obtained, and in a short time a sinking pump will be required to keep the mine free.

The ore has continued to the bottom of shaft, increasing in width and richness.

In conclusion, I would state that these veits are true fissures, and I have no doubt the best mineral beit in Arizona.

itsulis show that even the rems ore of intimine can be mined and milled at a profit of
over 1848 per cert.

The mine at I billadelphia determined the
value of 7 and 9-100 cunces of building from
the run to be \$9.52.

The Company, being so well satisfied by
those one numerous other strictly reliable
issued the reliables of this mine, they have
pur have a Wiswell 10-ton crushing mill with
cugine, boder and all necessary tools and appliances for ancessfully working the mine on
a fiberal scale. These will do on the ground at
the issue within the next thirty days, and it is
considerally expected that the plant will be in
full optisation within ninety days thereafter,
with every promised a dividend on the shares
early in the next winter. The mill can be
run every day in the year.

Such is the confidence of mining men in this
mire that shares are already selling at ran to
tuyers who know what they are about.
